

COMPANY PROFILE

ABOUT US

RBV Valves delivers high-performance valves, actuators, and services for industries. With decades of experience, we go beyond products — we provide complete flow control solutions that reduce downtime, cut maintenance costs, and support a cleaner future.

VISION

To be the premier source of reliable valves through innovation, quality, and sustainability.

MISSION

To empower industries with reliable valve solutions, expert support, and lasting partnerships.

CORE VALUES

Excellence

We deliver the best

Collaboration

We grow together

Integrity

We do what's right

Sustainability

We build for the future

People

We value our team & clients

INDUSTRIES WE SERVE

Our team delivers tailored solutions to meet the unique demands of each sector — ensuring reliability, efficiency, and compliance. We provide valve solutions for a wide range of industries, including:

Palm Oil

Water & Sewage Treatment

Chemical & Oleochemical

Petrochemical

OTHER PRODUCTS

Beyond valves, we offer a full range of flow control and safety accessories — including strainers, steam traps, actuators, flame arresters, safety valves, and more. Each product is selected to support system performance, protection, and reliability.

Strainer

Air Release Valve

Inverted Bucket Steam Trap

Flanged Safety Valve

Control Valve

Thermoplastic Valve

Threaded Y strainer

Foot Valve

Thermodynamic Steam Trap

Solenoid Valve

Electric Actuator

Pneumatic Actuator

Threaded Safety valve

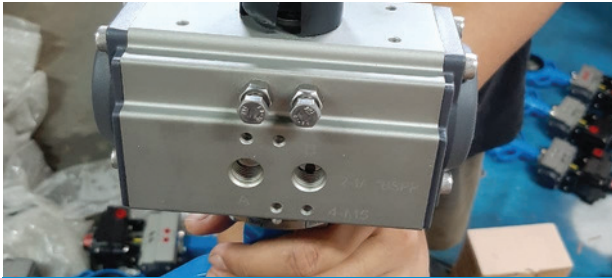

Limit Switch

Sight Glass

OUR SERVICES

We offer end-to-end support to keep your systems running smoothly:

Valve Assembly
(Electric & Pneumatic)

**Actuator Setup, Servicing
& Troubleshooting**

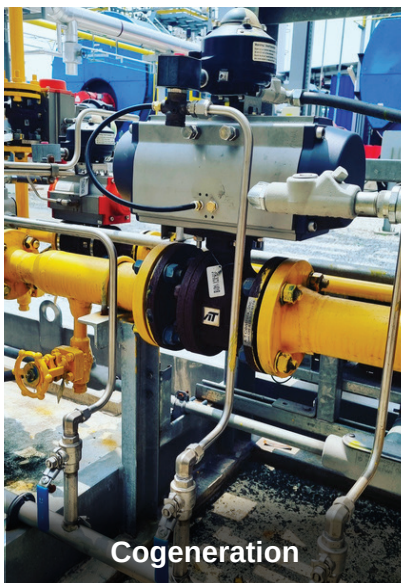

On-site Installation

Valve Maintenance

REFERENCES

Trusted by leading players across industries — from glove production and palm oil to water treatment and chemical plants. Our valves perform in high-demand, high-temperature, and critical applications worldwide.

Cogeneration

Glove Production
